Whole House Water Treatment System

50% Less Salt, 50% Less Water, Better Price

Produced by
ULTIMA
Water Products

Combines your water softener and whole house filter into one unit using patented Reticulated KDF Technology

KDF SPONGES

Remove or reduces chlorine and heavy metals including Mercury and Lead.

The Reticulated Media or Sponge technology needs Less water to backwash than normal KDF and has an Infinite lifespan.

Coconut Shell Carbon

Removes or reduces Chlorine, Herbicides, Pesticides, Cleaning by-products and Trihalomethane.

Coconut Shell Carbon is one of the most porous substances on earth and is perfect for water treatment.

Uniform Bead Resin

Outperforms ALL other resin on market. Keeping the bead size the same means it needs 50% LESS salt than a conventional softener.

Part Number Description

GF-1000	Green Fusion 1 Cu. Ft. System
GF-1500	Green Fusion 1.5 Cu. Ft System

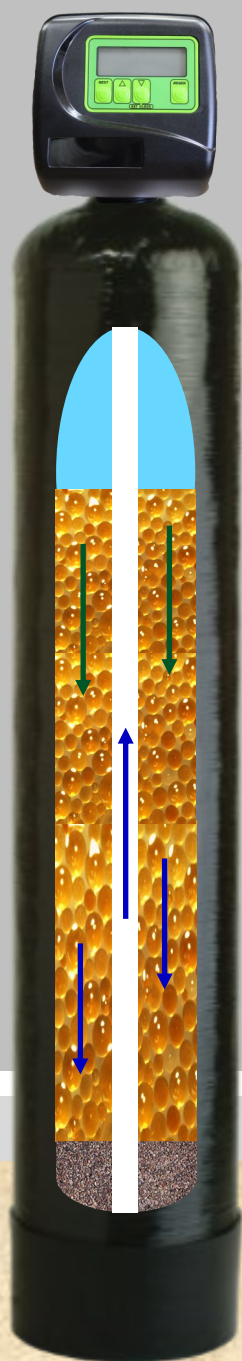

SYSTEMS

GREEN SOFTENER

Uses the latest technology in water softening to give you the full benefits of a softener while cutting salt and water waste by **50%**

UV Light

s your water
the use of
ls. Killing
r i a and
organisms.

Green Control Valve

is a "Smart Valve" that only regenerates when needed. It has been pre-programmed to back-wash with the minimum amount of water and still handle Arizona's hard water.

Uniform Bead Resin
